"The sparkle that started with a forbidden fruit."

Christmas baubles evolved from the traditional apples used on German "Paradise Trees"—representing the forbidden fruit of Eden—when 19th-century German glassblowers in Lauscha, seeking a cheaper substitute, began crafting the fragile, silvered glass ornaments we know today. These glittering decorations rapidly became a global trend after being popularized by Britain's Queen Victoria and her German-born husband, Prince Albert.

CHRISTMAS STARS

12

" The guiding light on the highest bough. "

The star primarily represents the Star of Bethlehem (or Christmas Star) from the biblical story of the Nativity, as recorded in the Gospel of Matthew. This bright star famously guided the three Wise Men (Magi) from the East to the birthplace of the baby Jesus.
